Made in Paraguay

CERTIFIED TO PROTECT. TESTED TO THE HIGHEST STANDARDS.

- Our PPE is tested to ASTM standards—the world’s leading technical standards for fluid resistance, filtration and breathability.

We use EUROLABS Labs, a UAF accredited laboratory testing face masks to ASTM standards.

Made from premium materials, IDEAL MEDPRO PPE delivers all-day comfort with superior protection.

High-Quality

Made from high quality PP Spun bond & Melt blown virgin fibers—never recycled.

Comfortable

Fabricated with more non-woven materials per mask for a softer, more comfortable feel.

Reliable

Backed by IDEAL MEDPRO manufacturing expertise and ISO 9001 standards for a consistent, quality product every time you order.

100% South American-made

Manufactured by our Asunción, Paraguay from South American supply chain.
